I was informed about the cease and desist order issued to Uber. I strongly disagree with this effort. From a consumer protection standpoint, Uber is a vastly superior option to competing taxi services. Uber rides are clean, safe, efficient, and reasonably priced. The same cannot be said of other taxi options.

Please reconsider your cease and desist order. There are no grounds to support it that withstand reason. This transmission is intended only for the proper recipient(s). Please allow UBER to service the Charleston, SC, area. I believe their service is a benefit that we should permit people to use. Although on some occasions they raise their rates, it usually occurs during times when regular taxi service is not available, e.g., New Years Eve. I'd rather pay the higher rates than a DUI.

Subject: Keep Uber in South Carolina

Uber is a safe, reliable form of transportation that South Carolina needs. Not only does its ease of use and simplicity discourage driving under the influence, but it also removes the hassle of having to call a taxi service in any circumstance, as well as the security issues that come from carrying cash (or even a card).

South Carolina does not have reliable, easy-to-find and use cab services. Uber helps ease this burden. And it's just as safe, if not safer, than regular cab services:

"Uber has set the standard for consumer safety in South Carolina. All uberX rides are insured up to \$1,000,000, which is 20x the \$50,000 required of taxis in the state, and all drivers on the uberX platform must pass background checks at the county, state, and federal level before they are able to drive on the Uber platform."

Please keep Uber in South Carolina.

Thank you.

Genna Claire Shelnett
